

MISSION

To support viable educational options for students who are experiencing difficulty in any educational system and are at risk of educational failure.

VISION

- Identify and Remove Barriers to ensure each student's educational success
- Build a capacity for students to Engage and Thrive Independently as learners and citizens
- Facilitate each student's acquisition of Essential Academic and 21st Century Skills
- Empower all staff, students, and partners to be active members of an Inclusive School Community and Culture
